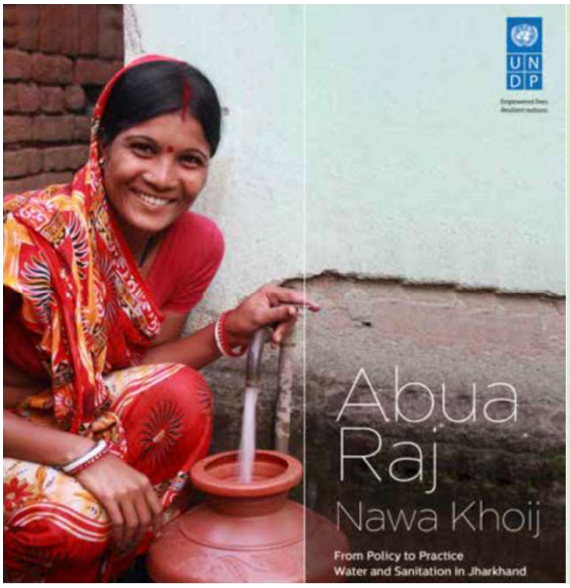
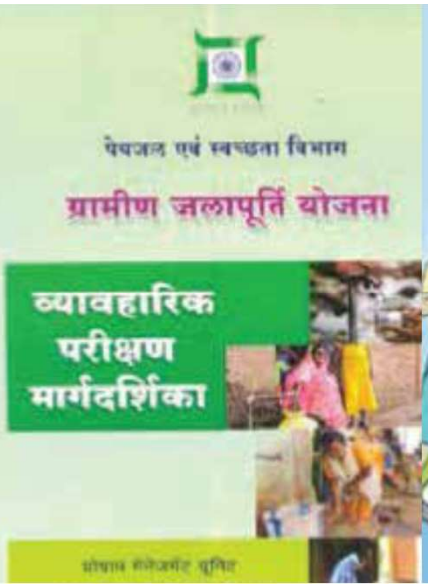
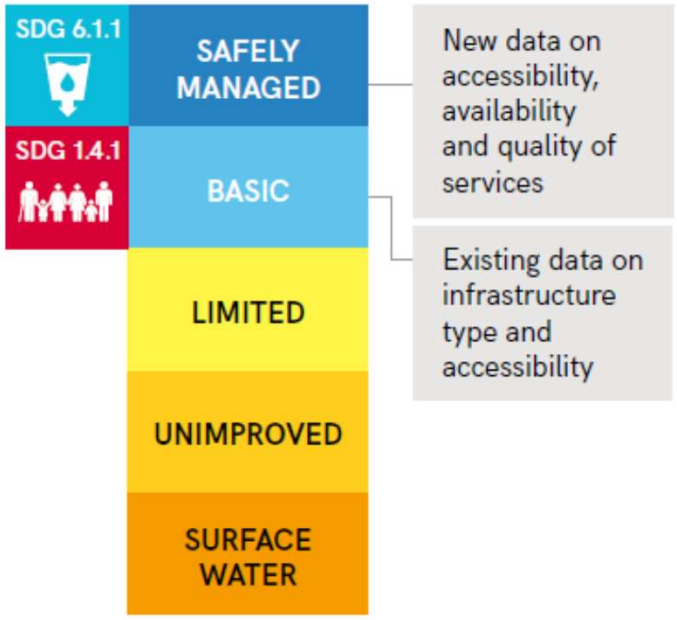
WATER SECURITY

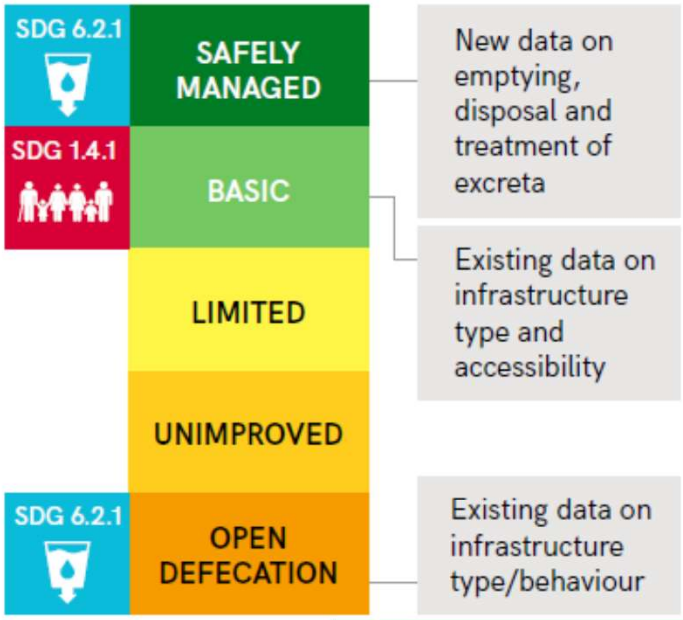
Credential: Our founder Kallol Saha was personally involved in design and implementation of these initiatives in Jharkhand





- **Transparency**
  - Ensure effective management of common resources
- **Participation**
  - Critical mass of community members must understand the project and participate in setting rules
- **Inclusion**
  - Who participates & who benefits
- **Ownership**
  - Community as a whole must feel that there are responsible for keeping it operational





Safely managed
Drinking water from an improved water source which is located on premises, available when needed and free from faecal and priority contamination

Basic
Drinking water from an improved source provided collection time is not more than 30 minutes for a roundtrip including queuing

Limited
Drinking water from an improved source where collection time exceeds 30 minutes for a roundtrip, including queuing

Unimproved
Drinking water from an unprotected dug well or unprotected spring

Surface water
Drinking water directly from a river, dam, lake, pond, stream, canal or irrigation channel

BY 2030 ACHIEVE UNIVERSAL AND EQUITABLE ACCESS TO SAFE AND AFFORDABLE DRINKING WATER FOR ALL

By 2030 Improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated waste water and substantially increasing recycling and safe reuse globally

Support and strengthen the participation of local communities in improving water and sanitation management

Safely managed
Use of an improved sanitation facility which is not shared with other households and where excreta are safely disposed in situ or transported and treated off-site

Basic
Use of improved facilities which are not shared with other households

Limited
Use of improved facilities shared between two or more households

Unimproved
Use of pit latrines without a slab or platform, hanging latrines and bucket latrines

Open defecation
Disposal of human faeces in fields, forest, bushes, open bodies of water, beaches or other open spaces or with solid waste

Scope of work under Jal Jeevan Mission

Support Activities

As per JJM scheme guideline, allocates 5% of project outlay as 'Support Fund'. As per chapter 9 of JJM guideline support activities include Information, Education and Communication (IEC) among local communities, Human Resource Development (HRD),public utility and leadership development, training and skill development, mobilization of local communities, third party inspection, change management, documentation of best practices, success stories,publications, etc.;conducting conferences, seminars, workshops, review meetings, exposure visits on JJM and IMIS support and related IT infrastructure. **Development Connects is capable of carrying out these activities as well as intends to help the mission in setting up of knowledge center and Key Resource Center.**

Water Quality Monitoring & Surveillance

As per chapter 10 of Jal Jeevan Mission, Up to 2% of the allocation to States can be utilized for carrying out water quality monitoring and surveillance activities. The task includes regular testing of water samples in sub division, district and state laboratories as per protocol. The States/ UTs are encouraged to explore Public-Private Partnership wherein the PHED/ RWS Department may collaborate with NABL/ ISO/ other suitably accredited private firms as Support Organization (SO) and utilize their strengths following all SoPs as per government procedure. States/ UTs may also encourage & promote rural entrepreneurship and enterprises for water quality testing at local level. **Development Connects is capable of conducting these activities in Jharkhand because of long standing presence and professional association of founders in similar domain.**

Implementation Support Agencies

As per guideline page 98 SWSM will identify suitable ISAs through a transparent process who are working in the field of Drinking water and community management, Water quality, Rain water harvesting/ recharge, water resources management, Capacity building and awareness generation, Public health engineering, Gender & water.

The eligibility criteria for the ISAs would be A minimum 3 years experience as a registered organization for organizations under 4(a) including organizations under Registration of Societies Act 186 and at least years work experience in the aforementioned fields of the NGO chairpersons/ board and experience of using Participatory Rural Appraisal (PRA) techniques and other communication tools in community mobilization.

Our affiliated Non Profit '**Development Connects, (Society) qualifies to be Implementation Support Agency in Jharkhand**.

Scope of work under Jal Jeevan Mission

Design and Installation Service

Through our affiliated contractors we would like to take up drawing, design and installation of water supply system. Being located in state head quarter , having a practical exposure to water supply design and installation and with footprint across the state we are better poised to offer comprehensive Project Management and Engineering procurement service across Jharkhand .

Research and Development

Jal Jivan Mission provides scope for engagement of individual researcher. Kallol Saha, founder of Development Connects is a well known expert in domain of water management and governance. He has a M.Sc. In Geology and Post Graduate Diploma in Rural Management with 18 years of experience in water sector. He has served as a director in state water and sanitation mission and also worked on international projects. Kallol Saha can take up technical & participatory research support as per Guideline .

How do we propose to work ?

Development Connects Society propose to work through network of it's associated organizations and like minded partners across the state of Jharkhand . We plan to gow by creating dedicated solution vertical for human development challenges in the life cycle of a organization and a Individual. For this, we are promoting dedicated initiatives'. Our affiliated initiatives are mentioned below with brief introduction of two critical compoent :

EMPLOYMENT CONNECTS
HUMAN RESOURCE MANAGEMENT

Information

Explore
Employ
Experience

An initiative by **Development Connects**

Employment Connects is a job search cum career facilitation initiative by 'Development Connects'. The initiative intends to help prospective candidates and employers in finding the right match. The initiative works through sharing of job vacancy information among members through what's app, website and social media handles affiliated to 'Development connects' and moderated by noted management consultant Kallol Saha.

A membership driven Human Resource solution

Members can register either as **'employer**' or as **'explorer'.** Employers are individuals or institutions who share job vacancy information or employment opportunity. Explorers are individuals looking for suitable opportunity and vacancy information. An individual or a institution can register in either of this category or as both employer and explorer. Registration to the network is free for all employers and explorers.

Service we offer

Job Sharing service

'Employer' Members of the initiative can share unlimited number of jobs and profiles in our what's app group and website page. Employers may be individual or institution. Individuals can become the part of the initiative by making a monthly contribution of Rs. 100.00 or an annual contribution of Rs. 1000.00 Institutions can become member of the Job Sharing initiative by making a monthly contribution Rs. 500.00 or annual contribution of Rs. 5000.00. Explorers can view these opportunities for free. Under this EC only hosts the vacancy information in it's website and share them through social media handles.

Profile Sourcing service

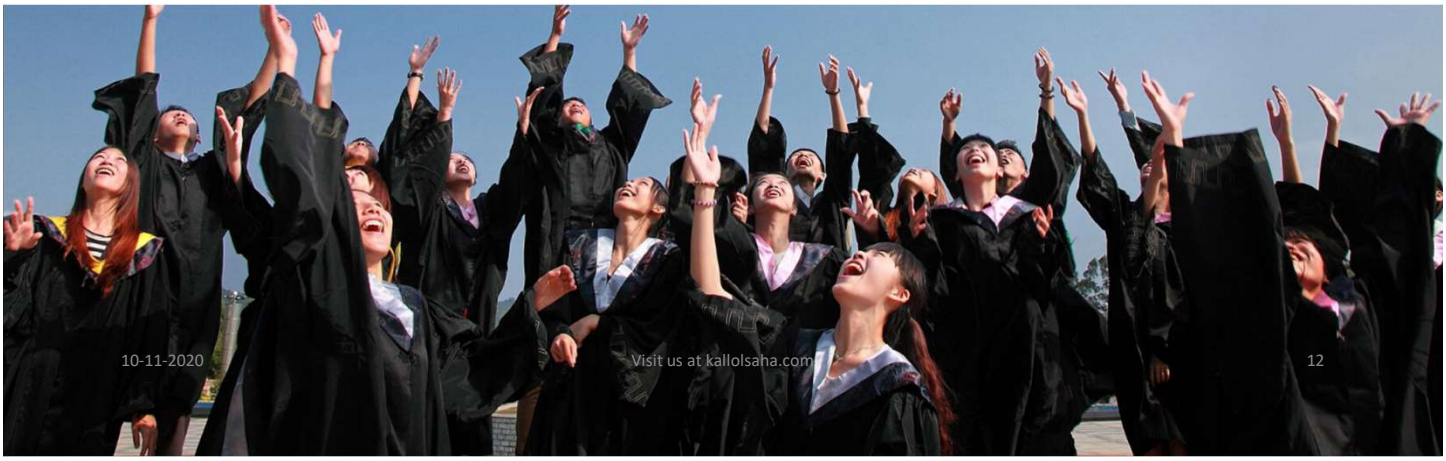
In this case, EC helps members of the initiative with CV of prospective candidates as per job description or service requirement. For this EC is working on to develop a data base of prospective candidates to be registered as 'explorers'. Explorers are categorized as Student, Young, Mid Career and Senior professionals as well as technical experts and Advisors based on their experience & expertise.

Professional Assessment service

EC offers remote facilitation of Group Discussion and interview facilities for employers placing inhouse experts .Here we conduct video GDPI using any of the remote communication platform. Client shall provide list of the candidates . Video recording of Group discussion and personal Interview and a psychometric profile of the candidate is made available on demand.

Professional Grooming service

Under this Service Category EC offers remote training of Group Discussion and interview facilities for explorers placing inhouse experts .



Knowledge Connects

A customized, on the go, not for profit Knowledge support system For Development Practitioners curated by Kallol Saha.

How does it work ?

'Knowledge Connects' (KC) is a peer learning group promoted by 'Kallol Saha '. It is an initiative to provide on time guidance to students and professionals working on Development Projects and Programs. The system works through subject specific knowledge groups hosted at Google Classroom and tracked through what's App communication.

Why us?

When comes to knowledge, I have seen people struggling with what they have and what they are looking for. I have seen people struggling with time, accuracy, precision and validity of knowledge they receive. Also, I have seen people struggling with content and continuity. That's where we come in .

What is the cost ?

KC offers flexible cost options suitable to participants requirement. Students can registrar with a annual subscription of Rs. 500.00 or monthly subscription of Rs. 100.00. Academicians can join with annual subscription of Rs. 1000.00 or monthly subscription of Rs. 200.00. Industry Professionals can join with annual subscription of Rs. 2000.00 or monthly subscription of Rs. 250.00. KC also intends to host regular coaching class and subject specific online lecture by eminent experts & educators. Costs to depend on peer group willingness.
